DNA concentration and quality among Nigerian sheep breeds
Agaviezor, B.O.  ................................................................. 1-3

Isolation and identification of Acinetobacter baumannii in Hilla City
a Rasha J.M.Al-Warid & 5Azhar A. L. Al-Thahab .............................. 4-8

Risk factors for ischemic stroke- A case control study
a Vijaya Sorganvi, 5Kulkarni, M. S., 5Rekha Udgiri, 5Deepak Kadeli & 5Suhasini Atharga ................. 9-12

Amphibian and ichthyofaunal diversity of 12 torrential streams of Wokha District, Nagaland
L. Nzano Humtsoe & Sabitry Bordoloi ................................................ 13-18

A study on some cell mediated and humoral immune response parameters associated with experimental infection of mice with Candida albicans

Effect of starvation on the cortisol level of fish Garra gotyla gotyla
Seema Langer, Jyoti Sharma & Sheetal Sharma .................................... 24-26

Microbiological quality of some spring drinking water samples in tribal areas of Chintapalli Mandal, Visakhapatnam District, Andhra Pradesh, India

Histopathological changes of broilers immunized with sonicated oocysts against Eimerria tenella
a,b Latif Ibrahim Kadhim ................................................................. 31-35

Geodatabase for susutainable rice production in Kwara State, Nigeria
a Oriola, E. O. & 5Olabode, A.D. .......................................................... 36-47

Pollination biology of Nilgirianthus wightianus (nees) Bremek. (Acanthaceae) in upper Bhavani, Nilgiri Mountains, Southern India
a D. Mohandass & 5Priya Davidar .......................................................... 48-51

Correlation between serum levels of insulin-like growth factor-1(IGF-1) with estrogen and free testosterone levels in obese type 2 diabetic women
a Shatha H. Ali, 5Abdul-Rahim Ahmed Ali, & 5Khalid Ibrahim Al-Luhaibi .............................................. 52-56

Early pregnancy diagnosis and fetal development of one-humped camels (Camelus dromedaries) in Iraq by b-mode ultrasonography
H.M.M.A. AL-Rawi ........................................................................... 57-62

Clinical and histological study of the effects of uterine infections on the pregnancy of dairy cows in Sulaimani region
Talib G. M. Ali & Faraidoon A. M. Ameen ............................................. 63-68

Nail growth in correlation with blood lipid
Khalifa E. Sharquie & Jawad Kadhim Shabout ...................................... 69-72

Morphological, anatomical and reproductive parameters in few varieties of mulberry (Morus spp.)
a Venkatesh, K. H., 5Shivawamy, S., 5Venu, N. & 5Munirajappa ......................................................... 73-75

Molecular investigation of type 3 maturity onset diabetes of the young caused by exon 4 of hepatocyte nuclear A1 gene mutations in sample of Iraqi diabetic patients
a Norrya Abdul Hussain Ali, 5Israa Adnan Ibrahim Al-Baghdady & 5Khalid Ibrahim Al-Lehabi.............. 76-79
Evaluation of certain insecticides and biopesticides against Helicoverpa armigera in pigeon pea
Yogesh & Rajnish Kumar ....................................................................................................................80-82

Detection of gfs genes with dental caries in some Iraqi diabetic patients
Norrra A. Ali, Halah Kamal AL-Qazzaz and Wia'am Al-Amili .......................................................... 83-88

Immunization mice with DNA from protoscolice of human hydatid cyst: A immunological study
Athmar K. Abbas ALazawi & Ban Abbas Abdul Majeed ........................................................................ 89-95

Effect of gonadotropins addition to smart medium on human sperm parameters and chromatin structure
during in vitro sperm activation
Rasha M. Mohammed-Ali, aSabah N. Alwachi & Muhammad-Baqir M-R Fakhridin ......................... 96-100

Detection of exon 1 hepatocyte nuclear factor 1A mutations and polymorphism associated with
monogenic diabetes in Iraqis
Norrrya Abdul Hussain Ali, Israa Adnan Ibraheam Al-Baghdady, &
Khalid Ibrahim Al-Lehibi.......................... ................................................................. 101-104

Short Communication
